

# Homework 15: Angled Block

Complete drawing in SolidWorks as described in videos for templates and the drawing of the Angled Block (described in previous slides).

Submit a PDF of the drawing to Canvas.

Due **November 3** (same day as P2).

# Video Tutorial: SolidWorks Drawings

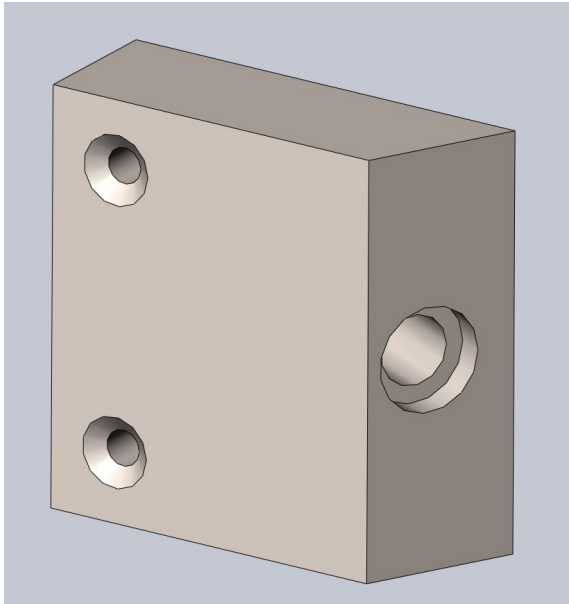

- 1) Watch (& follow) Template tutorial video:  
<https://youtu.be/1ke3TMUFyXc>
- 2) Download “HW15 - Angled Block.SLDPRT” from HW 15 link.
- 2) Use “ME366 Drawing” template to create drawing, showing:
  - a) Complete title block info (following template tutorial)
  - b) Complete dimensions for all geometries
  - c) Auxiliary view for hole on angle
  - d) Section view through angled hole

Follow the tutorial video at: <https://youtu.be/2rE1FWXI1G4>

See drawing on following page for example
